The Diploma of International Business is an innovative course program that targets latest thinking around global commerce while delivering important skill sets to professionals who wish to enhance their performance and employability in international business environments.

Many of the generalist skills required in business (management, communication, finance, marketing) apply directly within the international context. To ensure success in the global marketplace, it is increasingly vital to operate with an awareness of the cultural and legal differences that exist between countries, and proactively manage the impact of these factors on business outcomes.

Career Outcomes
Participants who undertake the Diploma of International Business typically do so to qualify for professional business roles with organisations that have an international profile of operations. The ability to work internationally is enhanced by this qualification, which is popular among proprietors looking to commence or extend operations to overseas markets.
