NATURAL THERAPIES

DIPLOMA OF AROMATHERAPY (HLT51407)

If you’re new to the natural therapies industry and looking to acquire professional skills in aromatherapy, the industry-leading Diploma of Aromatherapy is the course for you.

Aromatherapy training involves the use of aromatic plant extracts and natural essences for relaxation, healing, the treatment of ailments, and general health and wellbeing. The Diploma of Aromatherapy builds on the knowledge acquired in the Certificate IV in Aromatherapy, which is a pre-requisite.

The diploma includes learning modules in nutrition, and the use of aromatherapy in specific and rare conditions. The qualification has been developed via thorough industry consultation and is taught by experienced instructors who are practising aromatherapists.

The Diploma of Aromatherapy covers the provision of aromatherapy treatment to clients with specific needs such as palliative care, aged care, women, and children. Practitioners at this level may supervise other aromatherapists and formulate for individual outcomes.

Aromatherapists at this level are expected to have an in-depth understanding of a medium range (minimum of 40) of essential oils.

Who Should Attend
This vocational program is designed for individuals who have attained a Certificate IV in Aromatherapy and who wish to advance their aromatherapy training to the next professional level. The diploma provides the knowledge and expertise required to practice either independently or as part of an established team.

The Diploma of Aromatherapy is ideal for overseas-trained aromatherapists looking to bring their skills to the Australian market and who wish to ensure their training meets Australian requirements.

Course Structure
This course is delivered online over a duration of 72 weeks. This is divided into 3 study periods, each comprising 24 weeks.
